

Teacher Appreciation

May 4, 2010

TO Our Teachers:

In behalf of the Board of Education, and the entire Monroe 1 Organization, I want to express sincere thanks for all that you do for our learners. You are all special individuals. You help our students build a better future and help to keep our communities strong and vibrant

Most people spend their professional lives gathering unto themselves; teachers spend their professional lives giving of themselves. For that and for everything you do every day, thank you.

Sincerely,

Dan White
